

Our Vision

To offer a happy and beautiful future with nature bounded, VW and environment loving people.

Our Mission

We want to organise activities to keep and preserve our nature, the principle of helping each other, to present our VW's using the well known VW community.

Our story since 1995

The most complementary part of Nature, Peace and Friendship were our VW's. We always tried to remember that not only humans are the ruler of the nature. The community has dedicated itself to the other elements of the nature such as animals, plants and were grateful with their VW's.

We see in the past that strangers became our friends, that we got to know our companion thanks to these vehicles.

Sometimes, we had a long break between the meetings, sometimes we had a couple in the same year. We have exhausting but also unforgettable memories. The ORDU VW Meetings are not only our success but also from those who took part in it.
